EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Vazken Alexanian on September 1, 2004.

Claim 48, delete the word "and" after the term "arylene group;"

Claim 48, in the term "wherein each Y, Y' and Y" is independently selected from", delete "Y,".

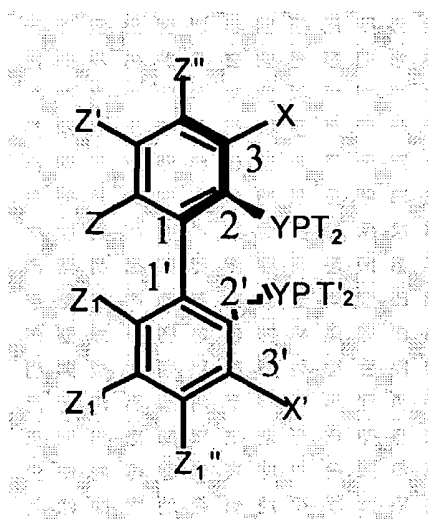

Claim 48, before the ".", insert the following:

"and wherein each Y is independently selected from the group consisting of: CH₂ and a bond between carbon and phosphorus; with the proviso that when the Y group at the 2' position is a bond between carbon and phosphorus, X' is hydrogen"

The following is an examiner's statement of reasons for allowance:

Applicant has amended the claims in a manner overcoming the outstanding rejections. Namely, Applicant has canceled claim 72 and incorporated its contents relating to asymmetric reactions into claim 71. Thus, amended claim 71 now includes only the asymmetric reactions that are recited in claim 72 and, as such, is allowable. Also, Applicant has rewritten claims 61, 63, 64, 70, 79, 94, 96, 97 and 103 in independent form and therefore are not subject to the proviso of claim 48.

By the outstanding Office Action, a search of the prior art has not uncovered any reference that teaches or suggests a catalyst prepared by a process comprising:
contacting a transition metal salt, or a complex thereof, and a ligand selected from the group consisting of compounds represented by the formula or its enantiomer:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
